

XL DRY BULK STORAGE TANKS BY THE INDUSTRY LEADER . . . TANK CONNECTION AFFILIATE GROUP!

The BIGGEST and the BEST in XL DRY BULK STORAGE come from one company TCAG.

Tank Connection is the only tank supplier worldwide that designs, manufactures and installs all four types of steel storage tanks including bolted RTP, field-weld, shop-weld and hybrid tank designs for dry bulk storage applications.

Their precision RTP (rolled, tapered panel) construction is the #1 bolted tank design selected worldwide. The best features of bolted and field-weld tank construction have been combined together in the RTP design. It remains unmatched in the industry in all category ratings.

In bulk mineral storage applications, powders and aggregates, Tank Connection builds the largest bolted and field welded tanks in North America, offering:

- ✓ Bolted RTP hopper tanks in sizes up to 48' diameter with capacities exceeding 7000 tons of product storage.
- ✓ Field-Weld hopper tanks up to 60' diameter with capacities exceeding 10,000 tons of product storage.

In the power industry, Tank Connection is routinely specified as the premier storage tank design and construction field services of choice!

Tank Connection specializes in XL storage tanks, custom engineered truck and rail drive-through designs and integrated storage systems.

Tank Connection’s EXT Fusion 5000 FBE™ is unmatched in performance compared to ALL coatings offered in the industry today. Additionally, at TCAG their coatings are applied utilizing the latest state-of-the-art coatings technology. Compared to other bolted tank products, the coating mil thickness on Tank Connection RTP tanks is 1.5-2 times that of competitor products.

Tank Connection also provides complete turnkey field installation service, utilizing a tec-synchronized, hydraulic screw jack process, which allows field crews to install large XL tanks at grade level. TCAG field installation services are rated the best in the industry today worldwide.
